

**CANADA WINTER GAMES
SHOOTING MATCH RECORDS AT FEBRUARY 28, 2015**

NOTE: 1991 was the first of these matches in some years, and was on a new target introduced in 1989.

In 1995 the course of fire in the men's events was changed from 40 to 60 shots.

1999 was the first time Finals were introduced.

In 2015 electronic targets were used; decimal scoring was used in the Air Rifle competitions; and the Finals were changed to a 20-shot stand alone match.
