## ATHLETE AGREEMENT for the use of a BCTSA SCATT System

The British Columbia Target Sports Association has multiple SCATT Training systems available for use for our provincial high-performance athletes. This agreement outlines the criteria that must be met by an athlete in order to secure a SCATT System for their own use.

The SCATT may be made available to the athlete for a pre-determined period of time as set out by the Provincial Coach. During this time the athlete MUST submit weekly SCATT files to the provincial coach to ensure the coach is kept up to date on the athlete's regular practices. These data files will be used to assess, maintain and refine the athlete's performance and will be integrated into the athlete's training plan.

The athlete must agree to the listed criteria before a SCATT is made available. If the athlete is not of legal age then a parent or legal guardian must sign the agreement. After the agreement is returned to the BCTSA, a SCATT will be shipped to the athlete.

The SCATT package will be accompanied by an equipment list that includes a description of all items in the package as well as an assessed value of each.
