

**CANADIAN GRAND PRIX
AIRSO&RIFLE RECORDS MARCH, 2015**

COMMENTS:

This match began in 1983 as the Crosman Championships - it became the Canadian Airgun Grand Prix in 2003. Results prior to 1989 are incomplete and these records do not take them into account. The Air Rifle target changed in 1989 so earlier results are not comparable; and the change to digital scoring in Rifle in 2014 means that all Rifle records were new in 2014. Also in 2014 the Finals structure was changed to a 20 shot standalone format. The matches in the competition have changed considerably over the years; these records list only matches which are current.

**CANADIAN AIRGUN GRAND PRIX
AIR RIFLE MATCH RECORDS @ MARCH 12, 2013
(Prior to digital scoring of targets)**

COMMENTS

From 1989 (when a new target was introduced) until 2013 the Air Rifle targets were scored conventionally to whole numbers. The following are the records established in this period. In 2014 digital scoring was implemented and all these records were superseded. Since the numbers below apply to over 95% of the matches they should be recognized.

I consider it particularly noteworthy that the records for the 40 and 60 shot Air Rifle matches were set in 1989 by Sharon Bowes - and never tied or beaten. Some shooters came close on a few occasions, but couldn't match them. Kudos to Sharon!
